

**Ing. Francis Farrugia**  
**Managing Processes, Systems & Projects tutor**

Francis graduated as an Electrical Engineer in 1987, and he joined the public service at the Standards Laboratory where he was Head of the Electrical Division for 10 years. His responsibilities included testing and drafting specifications for electrical goods for various public and private organisations. In 1998 he was engaged as a Project Manager with the Malta Standards Authority responsible to set up the National Laboratory. Ing. Farrugia is currently responsible for standardization activities in Malta which include development of Maltese standards, adoption of European and international standards as Maltese standards, training programs on quality, environmental, food hygiene, safety standards, and certification of management systems such as Quality Management Systems, Environmental Management System, and organically produced products. In 1996, Ing. Farrugia graduated from Henley Management College with an MBA degree. He has been lecturing on the Henley MBA programme for many years.
